1 Overview

The purpose of this document is to provide an approximate guideline for the weekly ASL study group. THIS IS NOT WRITTEN IN STONE, MERELY A GUIDELINE. It can easily be changed, modified, tweaked, or disregarded as desired. This varies heavily based on who actually shows up to a session. Sometimes if everyone is more advanced, the more rudimentary parts can be skipped, whereas if there are more novice signers, it is encouraged to cover the basics, and who among the non-natively-signing couldn't use some improvement in reading/receiving finger spelling?

Any parts can be used as much or as little as desired. It also encouraged to add to this document over time. It is planned to post this document as both a PDF and as a wiki page on the website, so that everyone (registered at <http://www.spokaneasl.com>) can add, and modify this document over time. Please feel free to do so!

Currently the following reference materials are regularly being used as guides (please feel free to others):

1.1 Study Group Schedule

First hour is generally for beginners to intermediates.

Second hour is generally for intermediates and up.

All times are just approximations, it varies greatly on who shows up (and they skill level).

The schedule is given as a guideline for those who wish to show up for specific areas, though it is always best to try to participate for the full 2 hours. The first hour is mostly review/practice, the second hour is usually more social in interaction.

First Hour (All signing levels, *beginners and above*)

Meet and greet. Introduce each other and “chat” as people arrive.	5	4:00 - 4:05
Warm up with finger spelling alphabet and numbers.	5 minutes.	4:05 - 4:10
Then frequently used vocab.	20 minutes	4:10 - 4:30
Then one chapter/set of other vocab	20 minutes	4:30 - 4:50
Followed by corresponding chapter/set of sentences using that vocab.	10 minutes	4:50 - 5:00

Optional Second Hour (*intermediates and above*)

Guided grammar & story time.	15 minutes	5:00 - 5:15
Free form story time.	30 minutes	5:15 - 5:45
Free form social time.	30+ minutes	5:45+
Finish.		

2 WARM UP

For those who are not signing on a regular, daily basis, warm up helps not only from the physical aspect of stretching out, but also getting mentally into the mode of signing, this is also a great chance for less experienced signers to ramp up quickly and not feel left in the dark as much during the more “advanced” stages, especially the social hour.

Please note it is usually easier to sign with everyone sitting in a circle or roughly square, rather than a rectangle or scattered around the place. It is even better without tables between participants.

2.1 FINGER SPELLING

Unless signing on a regular daily basis, most people struggle with finger spelling, especially reading someone else's finger spelling at higher speeds.

- Start out with finger spelling the alphabet.
- First begin very slowly especially if any beginners or ASL I level participants.
- Run through alphabet 5 times, each time a little faster. The fifth time is as fast as each person can handle.

It is extremely important that each participant be WATCHING someone ELSE signing rather than themselves or looking off “into space”. It is recommend to be looking at a different person each time through the alphabet to get practice reading different “quirks” to each individuals method of finger spelling.

3 Most Frequently Used Vocabulary

If beginners are in attendance, perform the sign, then finger spell the sign, then verbalize the word, and finally perform the sign one more time. For *intermediate and higher participants*, for each vocabulary word, perform the sign, then finger spell the word, and then perform the sign a second time. If someone does not know the sign, repeat the sign and finger spelling until the everyone understands, do *not* verbalize.

This section provides a list of the more commonly used vocabulary. It is not by any means an exhaustive list of ASL signs, just the most frequently encountered.

7 Additional Vocabulary

Flip randomly to a chapter from (any) ASL book (or batch of flash cards) using the vocabulary section, and run through the list of vocabulary from that chapter.

First give the ASL sign. Repeat as needed for those who request it. If some do not know what the sign means at all. *Do not speak the answer*, instead (slowly as needed) **FINGER SPELL THE ANSWERS**. Let each person in the group sign a few words from the book, then pass the book around to the next person, and so on, until everyone in the group has had a turn to sign from the book, and all the vocabulary from that section of the book has been covered.

7.1 INSTITUTIONS

SCHOOL

HIGH SCHOOL

COLLEGE

RESIDENTIAL (DEAF) SCHOOL

CHURCH

TEMPLE

COMPANY / BUSINESS

STORE

7.2 PLACES

KITCHEN

BATHROOM

BEDROOM

HOUSE

HOME

COMMUNITY

CITY

TOWN

8 SENTENCES

Try to use the same or correlative chapter related to the same vocabulary used in the previous section (3), using example sentences from that book to build on the vocabulary just covered. Have each person sign one sentence from the book, then pass it to the next person. Keep doing this until all the sentences from the book have been covered. Remember to FINGERSPELL the answers to unknown signs, not speak the answers.

9 STORY TIME

Now each person takes a turn telling a brief story (in ASL) about their day, their week, their past month, or any other story they would like to tell. If there are more people attending, the stories should be kept shorter so everyone has a turn, if there are fewer people attending, then more time can be spent on each story. The stories can be very basic (depending on the person's signing ability), such as:

MY CAR LAST WEEK NEED FIX.

I TAKE CAR TO SHOP.

MONEY IT COST EXPENSIVE.

CAR NOW DRIVE OK.

Of course, feel free to provide more elaborate stories as well.

10 SOCIAL TIME

Now that everyone has had some time to get into the “mode” of signing, it is a free form social chat time for as long as anyone wishes. Everyone can continue taking turns chatting with the group, or break off into separate conversations. However, please do still try to remain in a circle/square so that others can jump in on conversations. For the less advanced/experienced signers, they will likely be a bit overwhelmed by the more advanced signers, but it is still VERY IMPORTANT for them to “eavesdrop” on the conversations to get used to watching faster signing.

The study group “officially” ends at 4:00 pm (or end of 2 hours depending on when the group started), but can certainly run over as long as anyone wants to stick around and continue signing.
